Combining with Personal Year and Personal Month

Always read predictions in this order:

Birth Number → Personal Year Number → Personal Month Number

Example: born on 19 May

- Birth Number: **19/1**
- Personal Year: **8**
- November 2026 Personal Month: **11/2**

Interpretation

- **19/1** brings karmic leadership and recognition.
- **Personal Year 8** focuses on money, business, status, and material growth.
- **Personal Month 11/2** activates intuition, partnerships, spiritual guidance, and important relationship decisions.

Therefore, November 2026 may bring a significant partnership or business alliance with karmic significance that directly affects career growth and financial expansion.

This three-layer method gives much more accurate predictions than looking at the Personal Month alone.
